MEMORANDUM FOR: THE RECORD

SUBJECT : Trip Report

[REDACTED]

25X1

Present: [REDACTED]

25X1

25X1

Purpose: Inspect progress on [REDACTED] (audio Correlator, P-224C).

25X1

1. The final model of the correlator is better than 95% complete, and is an extremely good-looking piece of equipment. Debugging and testing will take place later in the month, and I will take delivery of the model toward the end of the month.

2. We ran some music tapes into the breadboarded model, with disappointing results. The correlator operates much better on speech or pure tones.

As time permits, I will cut some tapes of both [REDACTED] [REDACTED] to take back up to [REDACTED] and will be in on final testing of [REDACTED]
